MUSICDJ'S

2019 Song Additions

The goal is to keep the sound fresh, and somewhat related to the theme of the year, Destination: Deep Space. There is no shortage of songs about space, stars, heavens, and even travel...however there is a tricky slope to navigate with songs about being "high". Some positive and motivational songs mention reaching highs [and lows too], and some are obvious drug connotations...I've tried to lean more towards the positive yet some with double meanings have merit too, so I've added a few sparingly...

Here are this year's additions to the music playlist... you may notice a couple or three similar songs as the past, however they are newer mixes or longer mixes as is the case for some songs in the Awards category... songs included here are also related to this year's theme.

Enjoy and have an AMAZING season!
Yours In Music,

Nick Poulakis
aka DJ Nixter

ARTIST	SONG	SITUATION/CATEGORY
