

# FIRST<sup>®</sup> MUSICDJ'S

## **THE DO NOT PLAY list**

This music list provided is very large, and gets longer and longer as it gets appended yearly. It tries to catch all the songs on the year-end Top 100 lists of Billboard and Spotify, which may have inappropriate language and/or content. If a song has any swearing in it, whatsoever, it gets put onto this list, and does not get played at a FIRST event. Not even the so-called Radio-Friendly versions.

Content guidelines are little "grey-er" than songs with swearing. The goal is to try and steer away from songs that are very sexual, promote drug or alcohol use, and ones that can be construed as disrespectful or slang.

During a typical season, even though "requests" are not usually granted, many students ask us to play some of these songs. And some DJ's will play most of the "cleaner" versions at their own private functions, however, for our purposes, it's much safer and easier to just not play it period. There are a plethora of other choices on the PLAY list that it won't be missed.

Songs that may have appeared on this list before due to tempo or relevancy have been left off...
